Start Recording?

It is highly recommended you record audio during your assistance. This will help resolve any disputes, and also ensures better safety for you and your helper.

This won't use any data, and we'll keep the files small

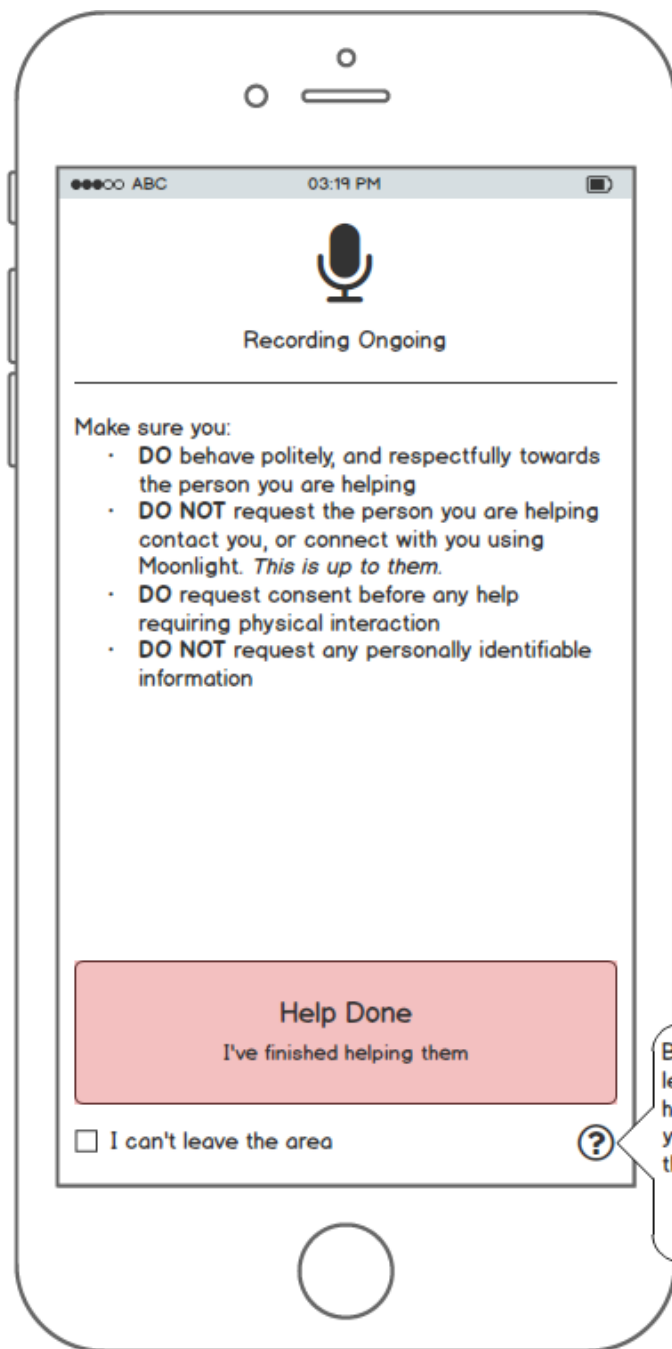

Don't Record

This is **NOT** recommended, and any negative rating you give can be disputed

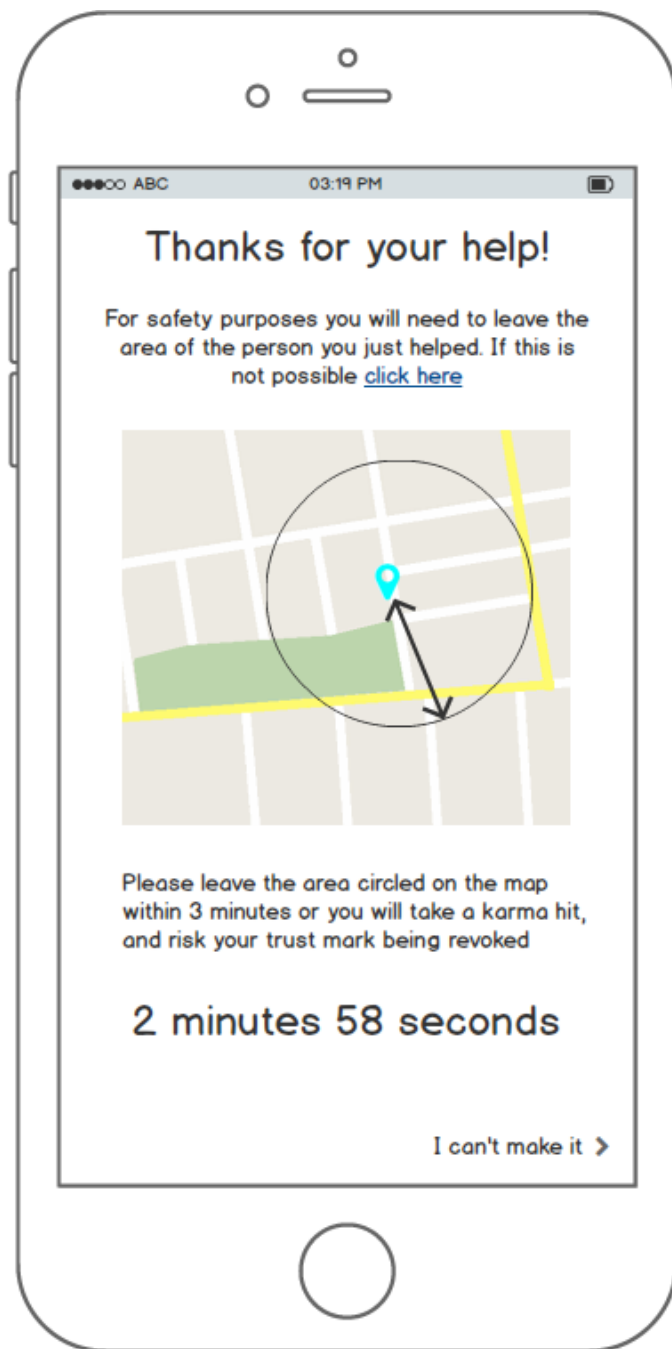

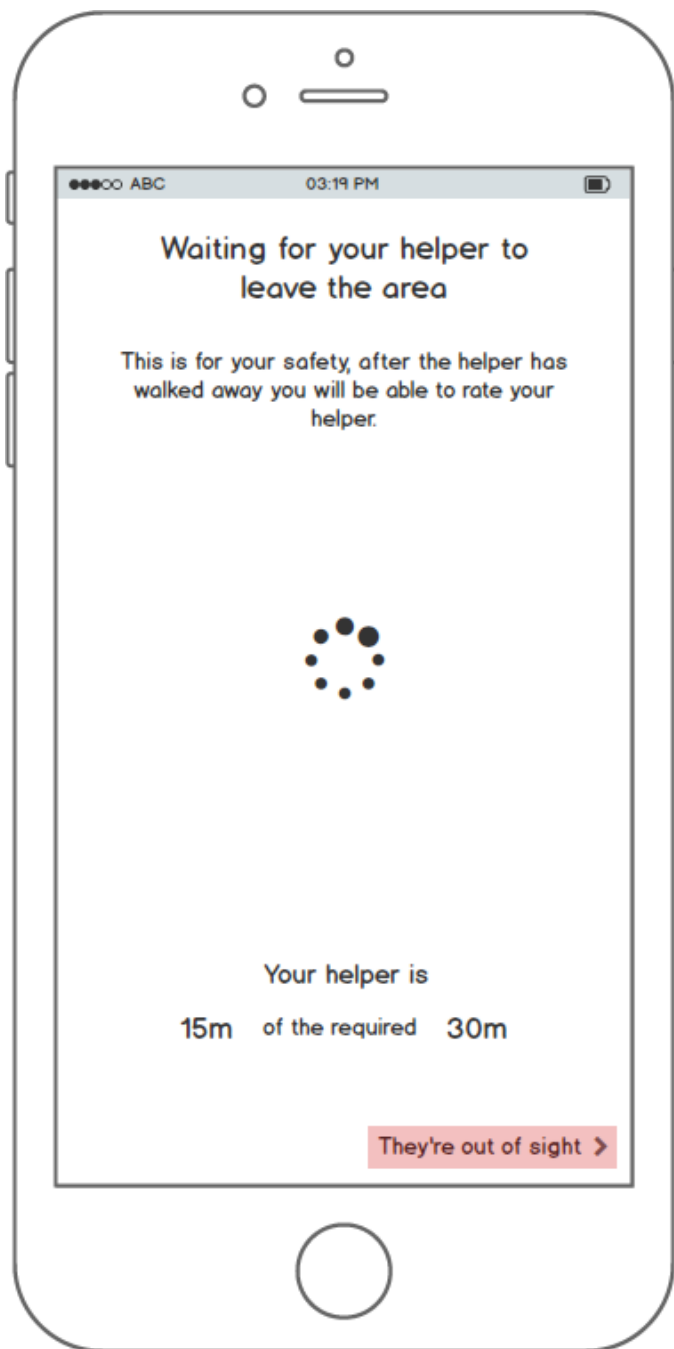

By default helpers will be requested to leave your immediate area after helping, this helps ensure your safety. If you are happy to continue a conversation with your helper checking this allows them to do so, without jeopardising their rating

Before we get started

The social service of Moonlight is not for romantic matchmaking, and **MUST NOT** be used for such purposes. Any unreciprocated advances by the requestor or requestee can result in their trustmark being **permanently** revoked.
